

Curriculum Offer

What does Sacred Heart want you to be?

At Sacred Heart we want every child to **live** the Gospel values, **learn** to aim high, think big and **love** life. Our curriculum is designed for mastery. It is carefully sequenced to secure knowledge and practise skills. Our learning is tailored to our unique context. We believe a focus on creativity, enterprise and diversity will equip our children to achieve spiritual, academic, social and emotional growth.

We are ambitious for our children, our school and our community. We aspire to develop compassionate, accepting people who will contribute willingly to society.
