

## SACRED HEART TAKES ON THE 'EYES OF THE WORLD' CAMPAIGN 2021

World Youth Day was launched with a virtual whole school liturgy. We learnt about the CAFOD campaign that intends to show world leaders that children all around the world are looking at their decisions regarding stewardship of our planet. We reflected on the fact that youthful characteristics such as energy, enthusiasm, drive, compassion and motivation are all key if we are to help protect God's beautiful creation. This initiative is called the 'Eyes of the World' campaign and Sacred Heart, Loughborough are proud to be a part of that.

The mission from the liturgy was twofold. Firstly, children were asked to sketch their eyes as they thought about the responsibilities that world leaders and all members of our universal community have. Secondly, the whole school community was asked to join together on the school field to work collaboratively to form the image of an eye. Over 200 of us took on this challenge and the images taken from the drone are evidence of what we can achieve if we all work in harmony with each other.

"This was a great way for children to come together and consider their Christian vocation in the light of COP 26" commented headteacher, Lisa Atkins.
